Claims 1-5 have been cancelled. Therefore, claims 6-11 are currently pending in this application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 6-10, drawn to an ophthalmic lens, classified in class 351, and several subclasses.
- II. Claim 11, is drawn to a process of making naphopyran compound classified in classes 549, and several subclasses.

The inventions are distinct, each from the other because of the following reasons:

The inventions of Group I and II are distinct, each from the other, because they differ in structure and/or element so as to be patentably distinct and a prior art reference anticipating but one of the groups would not render obvious the other groups under 35 U.S.C. 103. Groups I and II are unrelated because divergent class or subclasses of compounds and products exist and each group is capable of supporting its own patent.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper. Additionally, besides performing a class/subclass search, the examiner performs a commercial data base search and an automated patent system

(text) search. Moreover, to not restrict would impose a burden in the examination of this application.

A telephone call was made to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
